

What's your emergency response plan?

An emergency may catch you off guard, but it should never catch you unprepared. Learn proper emergency response with Affiliated FM's online training course

Planning for Emergencies.

This course is available at no cost to Affiliated FM clients. It takes less than one hour to complete. And, it can be accessed 24 hours a day, seven days a week from any computer connected to the Internet. No downloads required!

When you complete this course, you will be able to:

- Define emergency response
- List and define the hazards that result from improper emergency response planning
- Differentiate between the proper and improper methods of handling an incident
- Summarize the reasons for emergency response planning
- Interpret and implement the "plan" and "team" component steps of emergency response

Designed for plant managers and personnel responsible for protecting their locations, this course can be incorporated into in-house training programs or used individually. There's no limit to the number of employees you can register. Best of all, managers can track the performance and progress of those taking the course!
